Art Unit: 2151

Claims 1-28 are allowed over the prior art of record.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Bollman on 02/15/07.

The application has been amended as follows: see attachment (pages 1-3).

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach a message handler between a RMI handler and a destination handler; wherein RMI objects are inserted in the message handler by an application server in communication with the RMI handler (claims 1' and 11).

In addition, the prior art fail to teach accepting an RMI object from an application server; extracting a short message from the RMI object; and passing the short message to a destination handler for transmission to a wireless network (Claims 12 and 22)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
